

NOVOSTONES®

THE EXCLUSIVE TOTAL CONCEPT IN PAVING

NOVOSTONES®

THE EXCLUSIVE TOTAL CONCEPT IN PAVING

HAMME MARKT

WILDVERBAND • SHOT-BLASTED

ROMANO • WHITE-GREY GENUANCEERD

Novostones® is the complete concept for all paving projects. Pavers, tiles, water-permeable paving, and linear elements are available in the same finishes and colours. The wide range of colours and the choice of a shot-blasted or polished top layer create a limitless array of possibilities for aesthetic design and an appealing look in any public space.

STANDARD AND BESPOKE

In addition to standard dimensions and colours in pavers, tiles, and linear elements, Novostones® makes it possible to realise a project in exact accordance with your specifications. In our laboratory, our colleagues will develop a custom-made colour tailored specifically to your project.

NOVOSTONES® GROUND COATING

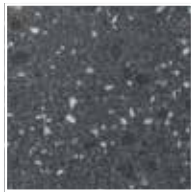

Ground coating emphasises the cross-section of the natural stone aggregates. As a result, the colour palette becomes more intense and shows greater contrast.

NOVOSTONES®

LINEAR ELEMENTS

Linear elements such as retaining edges, kerbs, boundary stones, gutters, and edging must be functional.

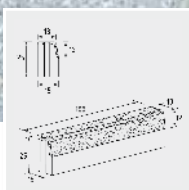

DIKKELVENNE

TYPE E KERBSTONES • TYPE II E 1 EDGING

KINGSTONE

In addition to their functionality, our linear elements have a visually appealing look thanks to the shot-blasted Novostones® finish. This makes it possible to supply linear elements in a matching colour to the paving.
